Board of Education
Frederick, MarylandRe: Firm Price for Paving Roadway to
Rose Hill Manor and Placing 1" Water Service

Attention: Mr. Sawyer

Dear Sirs:

The following is a firm estimate for certain paving and water line work meeting specifications as noted:

To construct a 12' width roadway from North Market Street to the existing driveway leading to Rose Hill Manor, a distance of approximately 660'. Roadway section to be five (5) inch compacted dense graded aggregate mix, primed with 0.2 gallon of MC-0 asphalt and surfaced with two (2) inches compacted Spec. "B" hot mix.

All grading and drainage structures to be done by others. The roadway, graded by others, to be within a tolerance of two (2) inches plus or minus.

The price for paving to include proper shaping and compacting shoulders and smoothing slopes to give the finished roadway a finished appearance -

Total estimate complete ----- \$ 2,835.00

To construct a one (1) inch water service leading from the water main on North Market Street along the proposed driveway and tie into the existing water service servicing Rose Hill Manor.

An inch tap will be made in the six inch water line in the center of North Market Street and a one inch copper service pipe placed. A valve and curb stop will be located at the property line. Trench will be excavated and backfilled within the property line by others.

Total estimate complete - - - - \$ 1,960.00

We trust that this is the estimate that you requested.

Very truly yours,

RICHARD F. KLINE, INC.
